

Adult Pathway “BALOO” and Cub Scout Adventures

This pathway takes about 6-7 hours to complete (depending on the size and attention of your group). The activities are fun and engaging for kids and adults. During training today, you will not only accomplish your BALOO training, but you will also acquire riveting tales. Your Cub Scout partner will accomplish some activities that go toward cooking, scout skills, and provide opportunity to unleash a child’s awareness of nutrition and creative thinking. Great for a group of 4 – 8 people.

There are new pre-requisites that need to be completed online before starting.

-Please go to My.scouting.org to log in then click on BSA Learn Center and scroll down to "Expanded Learning" where you will find the BALOO prerequisite training.
